PROJECTS

Analysis of Technological Breakdowns On Campus

UCSD

📅 2018

- Collected a variety of data, created visualizations and analyzed the data to explain the relationship between user error, impactfulness and work around availability of breakdowns.

Media, Technology and the Future of the Planet

UCSD

📅 2020

- Collaboratively created a fictional film that demonstrates the power of media and technology in the future

Factors that Affect the Alcohol Caused Car Accidents

UCSD

📅 2021

- Collaboratively created a github repository that explores correlation between several factors of alcohol caused car accidents using OLS regression model on Jupyter Notebook

Supervised Machine Learning Algorithms Comparison

UCSD

📅 2021

- Analyzed various supervised machine learning algorithms by running different data sets on Jupyter Notebook and composed a academic report

EXPERIENCE

Assistant Restaurant Manager

Shiku

📅 2016-2018

📍 San Diego, California

- Customer Service: maintain high level of customer service and satisfactory
- Accounting: run daily reports and update food and labor cost data

EDUCATION

University of California San Diego

📅 2016-2020

📍 San Diego, CA

- Bachelor's Degree in Cognitive Science with specialization in Machine Learning and Neural Computation
- Major GPA:** 3.50

RELEVANT COURSEWORK

Machine Learning

Probability

Modeling

Data Analysis

Algorithms

Computer Science

Statistical Analysis

EXTRACURRICULAR ACTIVITIES

🏆 Korean American Scientists and Engineers Association
2016-2018

🏆 American Red Cross at UCSD
2016-2018

🏆 Texas Milal Mission
2014-2016

TECHNICAL SKILLS

Python

Java

MATLAB

Excel

SQL

Jupyter Notebook

SOFT SKILLS

Korean/ English Bilingual

Hard Working

Team Work

Learning Potential

Problem Solving Abilities

Flexibility
